

Trusted Capital

USSOCOM/JAIC Virtual Venture Day

Focus: Artificial Intelligence
Starting June 22

- ❖ Trusted Capital will co-host an artificial intelligence (AI)-focused Virtual Venture Day with U.S. Special Operations Command (USSOCOM) and the Joint Artificial Intelligence Center (JAIC).
- ❖ JAIC integrates technology development, with requisite policies, knowledge and processes, to ensure long-term success and scalability for DoD artificial intelligence.
- ❖ AI sectors of influence operations and small maneuver will be represented:
 - Autonomous Vehicles
 - Machine Vision and Image Recognition
 - Machine Learning
 - Robotics and Scale Automation
 - Navigation System
 - Language processing and recognition

USSOCOM/JAIC Virtual Venture Day

Artificial Intelligence focus: June 22

Background

- ❖ Trusted Capital is co-hosting a series of events designed to convene DoD-critical companies and capital providers aligned with our national security interests
- ❖ Trusted Capital is collaborating across Navy, Army, Air Force, and SOF pitch day events
- ❖ The goal is to facilitate funding of companies with critical technology to provide risk mitigation against adversarial influence in supply chains and funding channels
- ❖ Potential participants will undergo the due diligence required to pass a national security review for entrance into the Trusted Capital Venture Day and Trusted Capital Marketplace

ADVANTAGES OF PARTICIPATION IN TRUSTED CAPITAL

CAPITAL PROVIDERS

- Access to potential deal flow from a trusted network of suppliers
- Enhanced visibility into sectors and companies vital to national security
- Engagement with companies that have potential partnership opportunities with DoD

COMPANIES

- Access to Defense Industrial Base demand and pre-screened capital
- Improved supply chain visibility
- Provides critical companies with access to the speed and scale of private capital while leveraging extensive business acumen
